Signing Of Treaty Tomorrow Afternoon May Not Bring To A Close Tense Situation Between Germany And Entente, Fear Allied Delegates

German Situation Is Serious

BERNE, Thursday, June 26—The general situation in Germany is becoming steadily more serious, according to the latest dispatches. The railroad strike, it is reported, is about to extend throughout the whole country. Spartacists do not conceal their belief that their hour has come, in view of the transportation strike and the poor food supply. Some reports state that famine appears imminent. On the other hand, it is said, a counter-revolution seems to be brewing in the east and the news from there is growing alarmingly.

PROTEST AGAINST FOODSTUFFS
HAMBURG, Thursday, June 26—The consumption of twelve now in control of the city, has issued a statement regarding disorders there, which reads:

"Again blood has been in Hamburg. Out of spontaneous disgust, at the shameful adulteration of foodstuffs, there has grown a stormy movement of protest which the Hamburg government thought to choke in blood. It has volunteers from Altona, a suburb of Hamburg, who, in connection with Hamburg police, brought about the bath of blood. Throughout all Germany in the few days, there have been spontaneous tumults that have not been political in character, but have been born of desperation on the part of starving people forced to pay money for the spoiled, unobtainable, horrible foodstuffs sold in order to poison those who retained their health to a certain extent during the fearful world's murder."

Labor To Protest Intervention

SOUTH PORT, ENGLAND, June 27—British, French and Italian labor representatives have decided to make a general demonstration on July 29 or 31 to protest against allied intervention in Russia. This announcement was made by Arthur Henderson, British labor leader, at the labor conference here today.

EX-AUSTRIAN EMPEROR IS SERIOUSLY ILL

GENOVA, June 27—(By the Associated Press)—It is reported from Genoa, where former Emperor Charles of Austria is staying, that the health of the ex-emperor is causing concern. He has not left the house for a week and is being attended by a French doctor.

PRESIDENT'S INTENTION ON PROHIBITION IS UNKNOWN

WASHINGTON, June 27—Despite a multitude of rumors and reports as to what President Wilson intends to do on annulling war-time prohibition, so far as it affects wines and beers, after July 1, apparently there is no one in Washington who knows the president's mind, and there is no agreement among administration officials as to the likelihood of his action.

Those who held that the president will take no action, declare he is without power to do so until the final termination of the state of war. They say his recommendation to the extraordinary session of congress for repeal of the prohibition statute in part was based on an opinion from the attorney general's office that congress by the phraseology of the legislation had shown him of the power to take action at this time.

Prohibition is made effective by the law until the termination of the war, and thereafter, until the president shall have declared demobilization completed, and therefore, the administration's legal advisers hold that prohibition cannot be annulled without congressional action until the treaty of peace has been ratified.

DISPUTE OVER AUTHORITY
Some officials and members of congress contend, however, that by "termination of the war" congress meant the ending of actual hostilities, and that the president has full power to repeal the war time prohibition after July 1 by declaring demobilization completed.

THESE MEN ARE LEADING THE HUNT FOR BOMB PLOTTERS

From left to right: J. T. Creighton, Attorney General A. Mitchell Palmer, Francis P. Garvan and W. J. Flynn.

The four men above are counted upon to track down the ring leaders in the bomb outrages which have startled the country and see that they are punished for their crimes.

Flynn is directing the operation of the men in the field. Garvan is in charge of the investigation. Creighton was made special assistant attorney to prosecute the bombers and A. Mitchell Palmer, as attorney general, is in general charge of the fight against the anarchists. New laws to aid in the prosecution are planned.

Frederick William Did Not Escape, Insists Holland

THE HAGUE, June 27—Frederick William Hohenzollern, the former crown prince, whose escape from Holland to Germany had been reported, was still at his residence on the island of Wieringen in the Zuider Zee this morning, it was officially announced here this afternoon.

The fact that the former crown prince was still at Wieringen was disclosed by an official investigation made by the Dutch minister of the interior.

Thursday's report of the escape of the former crown prince from his internment in Holland, it appears from the available evidence, came from British official sources in Paris. The accuracy of the news apparently was accepted without question in peace conference circles.

As the hours passed without details of the reported happening, doubts began to arise whether the British articles were correct. It was even suggested by one of the Paris newspapers that the ex-crown prince had been out on a luck with Dutch territorial limits and that this had given rise to reports that he had fled into Germany.

Until fuller cable advices are received, however, the circumstances surrounding the origin of the report can only be a matter of speculation here.

Ex-Kaiser Plans To Flee Holland

BERLIN, June 27—(By the Associated Press)—Former Emperor William is planning to speedily return to Germany before the entente can demand his surrender from Holland, according to a Stuttgart dispatch to the Dutch government "thoroughly approved of his return, as the former emperor is an unwelcome guest and his presence in Holland is increasing the problem before that country."

STAMPING OUT PROPAGANDA OF THE GERMANS

COBLENZ, Monday, June 24—(By the A. P.)—George Sauerborn, editor of the Montanbau Kriesblatt, convicted on the charge of having published false statements regarding the American troops, has been fined 10,000 marks and sentenced to three months' imprisonment. The jail sentence, however, was suspended. Sauerborn's defense was the Kriesblatt had reprinted the article from a newspaper in unoccupied Germany, which alleged the killing of two Americans by civilians, and that the Americans subsequently levied a fine of 20,000 marks on the town where the shooting was alleged to have occurred.

The military authorities contended that the publication of this and similar articles was due to a secret German organization, the object of which was to spread anti-American propaganda in unoccupied Germany and in the occupied zones as well. Sauerborn is the headquarters of the first division, the largest town occupied by the American troops on the east bank of the Rhine.

The prosecutor said he had been informed that Thaw, for the second time, had been allowed to leave a Philadelphia sanatorium, where he has been confined in order to visit his mother in Pittsburg.

Anticipate Vexatious Delays Before Peace Is Actually Restored

(By the Associated Press)
Notwithstanding the probability that the final signing of the treaty seems near to accomplishment, Paris reports intimate that there is a feeling among the allied delegates that the signing may not bring to close the tense situation between the allies and Germany. A bad impression as to the stability of the present German government has been created in Paris. It is pointed out that there is no provision in the treaty as to when Germany must ratify the document, and it is feared there may be vexatious delays before peace is actually restored.

Meanwhile a Stuttgart dispatch to a Berlin newspaper states that former Emperor William, who for the last seven months has been at Amerongen, Holland, is planning to return to Germany before the allies can demand his surrender by the Netherlands government. The Stuttgart telegram declares that the departure of the former emperor would be welcomed by Holland, as he is "an unwelcome guest," and his continued presence in that country may prove embarrassing.

Dispatches report the internal situation in Germany is becoming increasingly serious. Affairs at Hamburg are concededly in a bad way and there are numerous reports of communist movements in existence, or in prospect, while the counter-revolutionary movement is said to be brewing in the eastern part of the country.

PARIS, June 27—Plans were completed by the council of four today for the signing of the peace treaty at 3 o'clock Saturday afternoon. No official, however, was issued by the council.

WILSON TO LEAVE FOR AMERICA AS SOON AS PEACE TREATY SIGNED

THEY'RE ON THEIR WAY
COBLENZ, June 27—(By the A. P.)—Foreign Secretary Muller and Colonial Secretary Bell, the two German peace delegates on their way to Versailles, passed through Cologne at 9:45 o'clock this morning, a telephone message from Cologne reported.

A Berlin dispatch to the Coblenz newspapers says that the German delegates understand that they are to sign the treaty at 3 o'clock Saturday afternoon.

WILL SIGN SATURDAY
PARIS, June 27—While no official announcement has been made up to shortly before noon regarding the time for the ceremony of signing the peace treaty with Germany, arrangements stipulated time.

Crush Revolt In Hungary

BERNE, June 27—A counter revolutionary movement in Hungary, during which a monitor on the Danube was seized by the anti-government forces, has been put down, according to advices to the Vienna correspondence bureau from Budapest.

The messages indicate that the counter revolutionary movement developed Tuesday. The officers who took possession of the monitor used the vessel's guns for bombarding the Soviet headquarters while numbers of their supporters on the banks of the river, it is declared, cheered for the cause of royalty. There was considerable rifle and revolver firing, during which numerous persons were wounded.

A Budapest dispatch to the bureau, filed on Thursday, stated that the trouble had been quelled and order restored. In referring to the outbreak, Bela Kun, the Soviet foreign minister, is quoted as recommending harsher measures to the central executive committee.

"The present weakness of the dictatorship is responsible for these troubles," he declared. "The bourgeoisie must be crushed without mercy. To proclaim kindness and leniency would be to shake the confidence of the proletariat. We do not want equality, but the dictatorship of the proletariat."

SHORTHAND TO BE USED IN THE PRESIDENT'S SEAL ON TREATY

WASHINGTON, June 27—Probably for the first time in history of the signature of an international treaty, shorthand characters will appear when the seals are attached to the treaty of Paris which will mark the official termination of the world war.

President Wilson will confer his signature by an impress upon wax of his own name written in short hand upon a seal ring which a student in college acquired when he was in session this morning before the plans for the signing.

If the signing occurs as contemplated, President Wilson plans to leave Paris immediately afterwards, sailing for the United States at noon on Sunday.

On the advice of the council of four, the Chinese delegates have agreed to sign the treaty unreservedly, with the understanding that a protocol interpreting the treaty, stating that Japan would retain the Shanghai concessions to China within a stipulated time.

There is a presidential seal, but this is used at the White House solely for stamping envelopes and letter-heads. It is almost a reproduction in diminished size of the great seal of the United States, save that the stars are arranged in an arc above the eagle instead of in a circle, and that it bears the legend "President of the United States of America" on the encircling belt.

Must Be Individual Signatures
The great seal of the United States will appear twice in connection with the treaty, or treaties, but this will only be in the final stages of its consummation. First, upon the article signifying the ratification of the treaty, and second, upon the proclamation which the president will issue informing the world of the completion of the convention. But authorities on treaty-making agree that the seals to be attached upon the first signature of the treaty must be those of the individual signers. This is a survival of the medieval custom of attaching the "sign of the arms" of the signatory, generally some belted knight or noble of high degree.

All of the American secretaries of state have had their private seals, Secretary Bryan taking great pride in the possession of an ancient stone of Henry's time, representing a con-

ENFORCEMENT LEGISLATION AS ONE BILL IN THE HOUSE

WASHINGTON, June 27.—The House Judiciary committee today voted 11 to 2 to report out all prohibition enforcement legislation in one general bill, with the war time enforcement measure set down as part one. The bill as finally amended by the committee will be sent to the House tomorrow and Chairman Volstead will ask for a rule for its immediate consideration. Members said, however, it was not likely that action would be taken until after July 4. Representatives Dyer, Republican, and Igoe, Democrat, both of Missouri, voted against reporting the bill. Representative third, Democrat, of Ohio, who voted for it, announced that he would sign a minority report and it was said that Mr. Igoe, Mr. Dyer and Pennsylvania, and possibly others would join him. The three sections of the enforcement bill are: War time enforcement, effective upon its approval; constitutional prohibition enforcement and regulation of the manufacture of industrial alcohol. Parts two and three will become effective January 10, when the country will go dry by constitutional amendment.

Lift Corns Off! Doesn't Hurt!

Don't let corns ache twice! Lift any corn or callus off with fingers—Here's magic!

For a few cents you can get a small bottle of the magic frezzone discovered by a Cincinnati chemist. Just ask at any drug store for a small bottle of frezzone. Apply a few drops upon a corn, taking care and immediately the old bothersome corn stops hurting. In a short time you can lift it out, root and all, with the fingers. Just think! Not one bit of pain before applying frezzone or afterwards. It doesn't even irritate the surrounding skin. Hard corns, soft corns, or corns between the toes, also hardened calluses on bottom of feet shrivel up and fall off without hurting a particle. Ladies! Keep frezzone handy on your dresser. Wonderful!

BROMLEY INJURED

Clarence Bromley, aged 21, son of G. W. Bromley, 2225 Eighth street, who is employed as a switchman in the N. & W. yards in East Portsmouth was badly hurt there at one o'clock this afternoon when he was run down by a car.

A wheel on one of the cars passed over a portion of his right leg between the knee and hip. The flesh was badly

lacerated, but attending physicians say the young man's leg will not have to be amputated. Bromley's left knee cap was fractured and he had a miraculous escape from having both legs ground off.

When the car hit him he had presence of mind enough to swing his body to one side and this prevented his legs from being in the path of the wheels of the car.

ENTHUSIASM RIFE AS THE RESULT OF DRUGGIST'S OFFER

Scores Manifest Interest in Free Distribution of Trutona at Wurster Bros. Saturday Morning

Great interest has been aroused in Portsmouth by the announcement in The Times that 72 bottles of Trutona, the perfect tonic, that is now being so widely used throughout the country, was to be given free to 72 residents of this city at the drug store of Wurster Bros., beginning Saturday morning at 9:30 o'clock.

Judging from the interest aroused in the announcement it is believed that the 72 bottles of medicine allotted to Portsmouth will be given away in a very short time. Numerous inquiries have been received at the Wurster drug store by persons who will avail themselves of the opportunity of receiving absolutely free of charge a one dollar bottle of Trutona.

The Trutona expert will be in Portsmouth especially for the purpose of seeing to it that the free medicine is given men and women who are suffering from ailments that Trutona is designed to overcome. Trutona is not a cure-all but the work of one of the leading chemists in the Middle West. Thousands of persons have testified to the beneficial results they have derived from Trutona's use for the treatment of stomach, bowel and liver troubles, catarrhal affections, nervousness, poor appetite and the like. It is an excellent tonic and system purifier and its use at this season of the year is especially recommended.

The 72 free bottles of Trutona will be given away at 9:30 o'clock Saturday morning at Wurster Bros. drug store.

SAID HE WOULD NOT OBSERVE PEACE TREATY

BERLIN, June 27.—(By the A. P.)—General Hoffmann, who was a prime mover in the negotiations leading up to the Brest-Litovsk treaty with Russia, has been dismissed from his command in the eastern district, having declared he would defend that district to the last man in defiance of the government's orders and never recognize the treaty of peace.

Long-Lived Creatures. Crocodiles which were in the swamps of the West Indies when the first explorer set foot on the islands, are basking there yet, and in the ocean still are whales that frequented the coast of France when Joan of Arc was a child and when, in 1415, Henry V of England landed in Normandy with a great army and seized Honfleur. These whales, if they could talk and cared to, could tell us that in those days there were large white fisheries along the Basque coast; in fact, pretty generally in the Gulf of Gascony. For whales live several centuries, while elephants rarely pass one hundred years; but carp and crabs sometimes live two centuries.

Centenary Celebration Columbus

Described by William C. Freeman.
Associated with Paul Block, Inc.
New York, Chicago, Detroit, Boston.

In commercial life A A A stands for the highest rating.

By a strange coincidence C C C, for the first time, stands for the greatest Exposition ever staged in America.

There is another thing about the Centenary Celebration Columbus that is quite as usual as the Exhibition itself.

The Centenary Celebration Columbus opened its gates on Friday, June 26th, and is scheduled to close them on Sunday, July 13th.

The first advertisement of this Centenary Celebration Columbus appears today, Friday, June 27th.

It is one of the 13 advertisements—the last one of which will appear on Friday, July 11th.

FAITH IGNORES SUPERSTITION—AND FAITH IS THE BACKBONE OF THE CENTENARY CELEBRATION COLUMBUS.

How did it come to pass that I am describing this Centenary Celebration Columbus to you?

The Committee in charge asked me to visit the Ohio State Fair Grounds, Columbus where the celebration is staged.

They asked me to inspect the buildings and exhibits as far as I could during a period of three hours and then to report to them my impressions.

They wanted me to find out for myself whether the Centenary Celebration possessed attractions that would appeal to the multitude. If I found myself interested as a stranger, then they wished me to submit a plan to advertise the Celebration to all of the people of Ohio and to people outside Ohio, but living near enough to Columbus to make the trip a day's affair.

I became so interested in the Celebration that the time for me to meet the committee arrived before I realized it—but I kept my appointment on the minute, and when I was asked to give them my impressions and suggestions, I found myself so enthused with what I saw (mind you, I saw only a very small part of the exhibit) I almost forgot to talk about the advertising plan.

However, I believe it was my enthusiasm about the wonders of the Celebration rather than the details of the advertising plan that influenced the committee to vote unanimously to have me give you a word picture of what I have seen and WHAT EVERY ONE OF YOU SHOULD SEE WITHOUT FAIL.

They thought, and rightly, too, that if I, a stranger, was so profoundly impressed, you would also be impressed if I could persuade you to visit the Exposition, which I will try to do, in this and following announcements.

Forget the cost of railroad transportation to and from Columbus. Forget the time required for the trip.

Forget the cost of the food you will eat, which, by the way, may be had on the Fair Grounds at little cost—or you may bring your own luncheons and eat them on the beautiful lawns which are shaded by wonderful trees.

The Fair Grounds and the buildings are in apple-pie condition, thanks to the enterprise and generosity of your good state of Ohio which voted a special appropriation to assist in making the Centenary Celebration in Columbus a success.

Nothing that I have ever seen—and I have seen many expositions—comes anywhere near equalling this Centenary Celebration Columbus—in INTEREST, IN EDUCATION, IN ENTERTAINMENT, IN MOTION, IN CHARACTER, IN UPLIFT.

Every father and mother in the State of Ohio and in nearby towns in other States, should make it a point to have their children visit this Exposition. It is in reality a GREAT UNIVERSITY where they will learn the habits and customs of the peoples of the world and the natives who have been lifted from the depths of despair to the hopes and realization of a God-fearing, useful life, brought about by the unselfish labor and sacrifice of thousands of men and women who patiently train minds to see the light.

There is nothing sordid about this Centenary Celebration Columbus.

On the contrary, it is all joyful.

But it will make you think.

It will make you proud of your country—proud that you have so many brothers and sisters willing to reach out and help to elevate peoples of other countries to the same standards that prevail here.

This Centenary Celebration Columbus shows what America is doing to build up the manhood and womanhood of other countries—shows it in the most appealing and human fashion—shows it as that which you see will thrill you and make you realize the glorious benefits that are yours in this land of plenty and happiness and Christian brotherhood.

I cannot tell you the whole story in this first announcement—but I want to point out to you two things:

THE PAGEANT exhibited every evening in the Coliseum, which seats 7500 people—is a production so marvelous, that it attracted D. W. Griffith, the Master Motion picture artist, whose expert moving-picture operators took a "Movie" of it yesterday.

The Oval Amphitheatre, which seats over 50,000—where is shown the largest screen in the world. It is 123 by 135 feet. On this screen a projecting machine throws side pictures, representative of the habits and customs of the peoples of the world, each picture taking a space of 105 ft. square.

These two things alone—if exhibited for money-making purposes—would cost to see at least \$5.00 and \$2.50 respectively—yet you may see EVERYTHING during the day upon an admission ticket costing only 50 cts—and you can see the wonderful Pageant at night for an extra 50 cts.

This Centenary Celebration cost over \$1,000,000 to stage, and the exhibits themselves, all carefully selected, represent value of more than \$1,000,000.

Including today, the Centenary Celebration Columbus will be open 16 more days.

If the people of Ohio and neighboring towns in other States are as keen as I think they are, they will turn out in full force, and give this Celebration an average daily attendance of 150,000.

Make up parties in your home communities—charter special trains—and enjoy the greatest and most inspiring outing you have ever had in your life.

Prosperity Of Millions Involved In Riverway

Under the efficient leadership of Al-ous Coals and vast fields of oil, on N. Jordan, the Portsmouth Board of Trade is waging an active campaign to show the merits of the "Central Riverway" to connect the Ohio river and Lake Erie. This is a project which is of vital interest to one of the most important sections in the United States. It is not a Portsmouth, a Columbus, a Sandusky project, but it is a great community affair that will bring prosperity to millions of people. The Times is running a series of articles taken from a booklet issued by the committee boosting the plan and urges all of its readers not to miss one of them.

Tomorrow we are going to tell how "YOU" can help this project along, with no expense and with but very little trouble.

Today we give you a glimpse of the wonderful possibilities of the territory that will be affected by this "Riverway" and show why such a water route is a necessity. Read and digest it.

The article follows:

"Along the Lake Superior regions of Minnesota and Canada lie deposited two billion, seven hundred and fifty million gross tons of iron ore, rich and varied to meet every demand. In the mountains of Eastern Kentucky and West Virginia are the world's greatest deposits of bitumin-

ous coals and vast fields of oil. Between these storehouses of boundless energy (Coal, Coke and Oil) and countless commercial power (Iron) directly in the path, lies a route of easy water grades, sloping northward and southward from the divide at the lowest point in the State; a route

which the rail lines have wisely chosen as the line of least resistance for transporting this "very traffic." And along this route where the currents of ore and coal meet and blend, are scattered huge quarries of superior fluting stone and important fire brick plants, completing the union of coal and ore in the best furnaces and steel mills, which make teeming workshops of the cities along the way.

Traversing the center of industry and population of a state already a leader among the states of the Union in industry, agriculture, and population, and destined certainly to pre-empt in those respects, what route could possibly offer more efficient

service to a larger area than the Central? It is on the plumb-line from the Ohio through the Detroit and St. Clair rivers and almost the entire length of Lake Huron; the direct line from all the territory bordering upon the Ohio and Mississippi and their tributaries to the crux of the lake traffic and centers of industry at Cleveland, Sandusky, Toledo, Detroit, and the "Hoo." To reach the same points or serve the same territory via either of the other suggested routes, the great bulk of the traffic must de-

grade heavy commodities tracks that the traffic will not bear such a burden of extra expense."

Rev. Seamands Will Talk

The Rev. E. A. Seamands, of Porterville, Ohio, will speak at the Y. M. C. A. Sunday afternoon, at 1:30. Mr. Seamands is on his way to India, where he will do missionary work. He will be supported in his new trip by the Mansfield Sunday school of this city and is spending a few days here before sailing.

Miss Bertha Stinger will sing for the service.

MAY SEND COMMISSION

WASHINGTON, June 27—Presi-
dent Wilson advised the senate today
through the state department that he
was considering sending another com-
mission to Poland to investigate re-
ports of Jewish massacres. He said a

decision would be reached after he
had conferred at Paris with Hugh
Gibson, American minister to Poland.

The president's plans were outlined
in a letter from Acting Secretary Polk
in response to a senate resolution of
May 26, requesting information re-
garding reports of pogroms. It was
the first announcement here that Mr.
Gibson had been summoned to Paris
to discuss the matter with the presi-
dent.

In recent reports to the state de-
partment, which were transmitted to
a house committee by Assistant Secre-
tary Phillips of the state department,
Mr. Gibson said reports of mistreat-
ment of Jews in Poland were grossly
exaggerated.

Mr. Polk's letter disclosed that the

"The Pride of a Man's Life is His Home. Build It Now"

The following from the Irons Register of Thursday evening is of interest here:

Married less than three weeks Raymond D. Leighty today filed suit in Common Pleas Court, asking for separation from his wife Lorena Leighty. The plaintiff sets out in his petition that on June 11th last in this city and that in no manner, shape or form has his wife performed her marital duties toward him. He alleges that soon after the marriage he gave his wife \$75 for a trip to Portsmouth, where she said she was going for a brief visit. When she did not return, he went to Portsmouth and endeavored to induce her to return home with him, but she refused and instead, went to the home of her parents, where she has consistently refused to receive him as her husband.

He said that he has prepared a home for her and that as a result of her refusal to live with him he has to return the furniture at a loss of about \$200.

Mrs. Leighty before her marriage was Miss Lorena McKee and her home is at South Point, Lawrence county. She frequently visits here and has many relatives in this city. Mr. Leighty gave his age as 22 and Miss McKee as 18 on the day they were married.

front all around sport. Her lover kills a gambler and makes his escape, leaving an innocent man to stand prosecution. But, the Oriental lover, a brilliant prosecuting attorney, is branded as a coward when he refuses to go on with the prosecution. Rather than betray the American lover of the Japanese girl, he bears the stigma of a coward, until the climax clears up the romance. A Lloyd comedy and a Holmes Travelogue are on the program also.

Mary Pickford at the Temple Tonight in "Caprice" A Picture that Will Please All

Mary Pickford in delightful in all her characterizations, but she never fails to score heavily when she portrays a girl of rage and letters, and for that reason "Caprice" which will be shown at the Temple tonight will live as one of her best plays. The story of this picture is one that deals with the romantic adventures of a little, unattractive mountain girl. She knows but little of the etiquette and manners of society, but she does know how to fall in love with a visitor, played by Owen Moore. They are married, but trouble issues when the city hotel man takes the girl to his home. How the girl wins the respect of all and makes the kind of wife for which any man would wish, is told in a manner that is all Mary Pickford, so you know it is good. An episode of the new serial, "The Hand of Vengeance" will be shown also.

Dorothy Dalton is Beautiful in New Film "Green Eyes" (Columbia)

Paramount Star has Fine Role in Photoplay of the Southland

Beautiful is one of the most adored adjectives in the language but it can never be better employed than when applied to Dorothy Dalton, the lovely Paramount star whose "Green Eyes" will be the attraction at the Lyric Theatre tonight and tomorrow.

The South is used as a frame for the tale of a love affair, and it is one of the long absent master of the house, the best picture. It was directed by R. Dick Castleman, only to be exposed by William Neill and written by Elihu Stanger.

Miss Dalton has a myriad of followers who declare she is not only the loveliest thing on the screen but that she can outstep any star as well. And with all she is the most delightfully naive of young persons, refusing to permit herself to be flattered into excess.

But the Dalton made her biggest hit yet, it is the time of her engagement to the Paramount Pictures with "The Flame of the Union" but she then she has advanced steadily with such splendid pictures as "The Marriage of Marcello," "The Kismet," "Love Me," "Tugboat Fear," etc.

SKY ROCKETS, ROMAN CANDLES, TOY BALLOONS, ETC., BARRED

State Fire Marshal, T. Alfred Fleming, announced that under no circumstances would fireworks, such as sky rockets, roman candles, toy balloons or other aerial displays, be allowed in Ohio this year. The order is given with special reference to July 4th, but covers the entire year.

In this order the State Fire Marshal has the heartiest cooperation of the manufacturers, jobbers and retailers in fireworks.

All fireworks projecting sparks a distance of 5 feet are barred except as noted below. The ordinary "Merit chas-

ers" or other products which leave the base on which they are fired, are under the ban as are the 10 cent Vesuvius Fountains. Any of the 5 and 10 cent novelties such as sparklers, Chinese fire crackers and small torpedoes will be allowed except that none of these shall be lighted or exploded within 25 feet of any building or any combustible material.

No "Salutes" over 1 1/2 inches in length will be allowed.

A set piece will be allowed for display, only when so charged that sparks will not be thrown to a greater dis-

What to serve her guests to drink is often a perplexing question to the hostess. She doesn't want to serve several kinds and she does want to please everybody.

The happiest, surest answer is Sheboygan Ginger Ale. Sheboygan, mind you, is the ginger ale extraordinary. You and your guests might or might not enjoy some other brand; but here is the product of ripe experience, ideal manufacturing conditions, genuine imported Jamaican ginger, syrup of the finest and water of the purest and best distilled.

Taste Sheboygan and see for yourself just how good and refreshing ginger ale can really be.

more than 5 feet, and not fired within 100 feet of buildings or other combustible material.

In municipalities where ordinances prevail, prohibiting the use of fireworks these ordinances must be obeyed. In other words each municipality having such laws must see that they are adhered to.

All dealers in and users of fireworks must see that they are acting in accord with all the provisions and general rulings governing the control and license of explosives as provided for in the new Federal law.

Police chiefs and prosecutors all over the state are called upon, not only to see that the Federal, but the State and municipal laws on fireworks and explosives are obeyed and that the ruling of the Fire Marshal is carried out.

Undecided As To Location

At a meeting in the Allen Chapel A. M. E. church last night no definite point was reached as to the location of the new church. The Bishop telegraphed that it would be impossible for him to be here before next Sunday, Jr. S. P. West, presiding officer had charge of the session and appointed the following committee to look for a location that would be suitable and present the facts to the Bishop: Wm. Gooden, John W. Evans, Fred Miner and the pastor. The committee is to meet to night at 8 o'clock.

To clean your glasses, wash with soap and warm water in which a little salt of lemon has been mixed. The great difficulty in the way of getting the ground glass used for some glasses to look white is the grease which sets closely in the roughness.

LESSON FOR JUNE 29

REVIEW: RESPONSE TO GOD'S LOVE.

SELECTION FOR READING—PHIL. 3:1-14.

GOLDEN TEXT—I will praise thee, O Lord my God, with my whole heart.

PRIMARY TOPIC—Showing Our Love to Our Heavenly Father—John 14:15.

JUNIOR TOPIC—Some Things We Have Learned About God—John 3:16.

INTERMEDIATE TOPIC—The Marks of a Christian.

SENIOR AND ADULT TOPIC—Some Fundamentals of Faith and Practice.

The method of review will largely be determined by the grade of the school. The primary teacher can use the material which shows love to the Heavenly Father; the junior teacher, that which teaches about God; the intermediate teacher, the marks of a Christian; the senior and adult teacher, the fundamentals of faith and practice. An illustrative of the method for the senior and adult, note the following:

Lesson I. God who was before all things is the cause of all things. The universe came into being by the will and act of the divine personality. Man himself is a creation of God, not an evolution. All things continue to be by the preserving power of God. This great being is the Father of all who believe on Jesus Christ. We should give him our undivided affection and trust him for food and raiment.

Lesson II. Jesus, the Son of God and Israel's Messiah, is the lamb who bore our sins. Out of God's love he was given, and "whoever believeth on him shall not perish, but have everlasting life."

Lesson III. Jesus Christ rose from the dead. His resurrection guarantees:

1. The integrity of the Scriptures (1 Cor. 15:20).

2. The reality of the divine person (Rom. 1:4).

3. The sufficiency of Christ's atoning sacrifice (Rom. 4:25).

4. Life and immortality of the believer (1 Cor. 15:20).

Lesson IV. On the day of Pentecost the Holy Spirit was poured out upon the disciples, baptizing them into the one body of which Christ is the head. The gift of the Spirit peculiarly qualified the disciples to be his witnesses.

Lesson V. God created man in his likeness and image and placed him at the head of creation.

Lesson VI. Through the fall of Adam sin has passed upon all men, bringing death, physical and spiritual, and sorrow in its train.

Lesson VII. Lost men are saved absolutely by God's grace. His grace means his kindness toward men through Jesus Christ.

Lesson VIII. At the preaching of Jonah the people of Nineveh repented. Because of their repentance God's wrath was turned aside. Those who repent of their sins and cry to God for mercy through Jesus Christ shall be saved.

Lesson IX. It is only through faith that man can please God. Through faith the mightiest victories have been wrought. The grand exemplar upon whom faith can rest is Jesus Christ.

Lesson X. The grand incentive to obedience is love to God. Calling Christ Lord will not answer for disobedience to his will. Hearing and doing his teachings is building upon the solid rock. Such building can never be destroyed by flood or storm.

Lesson XI. The right motive in praying is not to attract man's attention, but to have fellowship with God. God is pleased with persistency in prayer.

Lesson XII. The greatest of the Holy Spirit's gifts is love—the love of God shed abroad in our hearts. Love is not a mere sentiment of emotion, but a mighty dynamic which transforms the life, expressing itself in practical service to men. It abides forever.

Staying Away From Church.

The habit of absenting one's self from the Sunday services of the church is one that some seem to acquire very easily. It is a habit to be shunned.

Sometimes it is occasioned by sickness; often some small excuse, some grudge against a member, some resentment at a fellow member's fault, is the occasion. Jesus will be there, even if an unworthy member is present. Jesus may be present especially to meet and forgive that unworthy member; and who are we that we should judge a brother or a sister?

Charity and Denial.

Brother men, one act of charity will teach us more of the love of God than a thousand sermons—one denial, than whole volumes of the wisest writers on theology.—F. W. Robertson.

Gratitude Then on Earth.

There is not a man or woman, however poor they may be, but have it in their power, by the grace of God, to leave behind them the grandest thing on earth, character; and their children might rise up after them and thank God that their mother was a pious woman, or their father a pious man.—N. Macleod.

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, Ohio.

Dear Miss Wise—I have been going with a widower. He is about fifteen years older than I and has one daughter. I also have one. Ever since I have gone with him he has talked of marriage, but we have never set the date. One night he came to see me and brought me a small diamond ring and asked me to wear it as an engagement ring, but for one reason I did not accept it. Then he told me to put on the ring and I did so. I liked it better.

This was two months ago and he has never mentioned it to me since. I love him dearly and would like to give him my daughter. He is good to me and my daughter. He has a beautiful home, two farms and is in society. I have nothing. He has only taken me out three times and I have been going with him one year and four months.

I planned to take a trip this summer, but he doesn't want me to go because he thinks I will see other fellows. I know he is very jealous of me. I believe he loves me but he has got me puzzled about the ring. His daughter is in college. My daughter is only twelve years old and he often tells me that he is going to send her to college when she gets through high school.

I think you ought to ask him when the bond ring will be ready. Since you and he are engaged, there is no reason why you should be different about mentioning such a matter to him. You might also say that you would like to make some definite plans about your wedding day so that you can prepare the little things that every woman likes to get ready. He will not be offended, since he loves you.

Dear Dolly Wise—Will you kindly tell me what effect lemon juice has on the hair when used not often? That once a week and even then diluted with water? Could you tell me something to use to make my hair a lighter color?

And fluff! You can judge for yourself whether or not the lemon juice diluted with water is hurting the hair. If you hair is oily, I should judge that the lemon juice would add to its fluffiness. But if your hair is dry, lemon juice will make it very dry and cause the ends to split. The use of lemon juice will tend to make the hair lighter. Do not use hair dye, because natural color is after all the softest and most becoming.

Dear Miss Wise—What should be done with a fourteen year old boy inclined to perversity and who has acquired the disgusting habit of sucking when he cannot have his own way? He is a bright, active boy, tall for his age and has no physical defects so far as we know. I have no such trouble with my three younger children. I have done everything that is all but the right thing, I suppose. If I only could know what to do!

Reasoning and coaxing have failed again and again, and so has spanking. To refuse him a thing of his allowance and even resort to smacking him to bed. Nothing seems to cure him, for the same thing will have to be done through again, over and over.

I am sure his needs are not beyond his control, for I believe when his father is around his behavior is better. His parents and sister have been little sympathy from his father, who has been in charge more times than the points are not listed. I am opposed to corporal punishment myself, but I do not want my children to play through fear.

year-old boy to be perfect all the time, he will have to be corrected over and over again, as all boys are. Try not to worry about his small failings. To tell him all the time would tend to make him sulky. Your methods of punishing are correct. Continue to deprive him of allowance, dessert, clothes, etc., and you will have effective results. I would suggest that he receive his allowance only when he has been a cheerful member of the family during the week for which he earns his allowance.

Your husband could cooperate with you and help you out in your punishing. I would not advise military school since the boy is opposed to it, but if nothing else helps send him.

Dear Miss Wise—I am twenty and engaged to a girl whom I love. I have earned my own living, you might say, for the last five years. I have enough money saved and earn a good salary, yet my parents are strong against my marriage only because I am young. As far as I know I am not a fool with-

their consent. Is there any other way, or must we wait until I am of age? We have made our plans without their knowing and have leased and partly furnished a small flat. Having helped with family expenses so far, I had not expected objection. They do not need my help now, but I cannot do or say anything to change their ideas. It puts me in an awkward position, for we cannot break the lease and do not care to rent out our furniture. Could I please ask for your advice? IN A HURRY.

You cannot marry without the consent of your parents, and so you might as well give up the idea until you are of age. The lease can be broken, since you are a minor and cannot legally enter into contracts. I, too, think you are too young to marry.

SOCIETY

The marriage, on last evening, of Miss Rosalie Turley and Mr. Charles M. Mitchell which was one of the fashionable events of the week, could not well have been lovelier. With a background arranged of palms and white roses intermingled with maidens, the setting for the nuptials was perfect in the solemn environment of Bishop's church. Miss Edna Marting presided at the organ and executed a number of appropriate airs while the guests assembled. Just before the entrance of the bride and groom, Mr. Robert M. Keeney sang "Calm As The Night," the music breaking into the strains of Tolens's wedding music, when Rev. E. C. Chandler took his place. The bride, a petite and charming brunette was never more attractive than in her soft frock of white satin, simply modeled, her misty veil arranged with a chic band of orange blossoms upon her hair. Her flowers were arranged in a shower of bride's roses and valley lilies. The maid of honor, Miss Rosa Turley, in pink organdie and the bridesmaids, Miss Mary Varner, herself a bride of this season, and Miss Dorothy Dowling in frocks of pink organdie, and Miss Mary Davidson and Miss Jean Turley in lavender, all carrying pink roses, made an effective foil for the bride, the color scheme of the wedding and the beautiful simplicity with which it was carried out, making it one of the most attractive moments of the year.

Mr. Mitchell, chose for his best man, Mr. Z. C. Patton of Chattanooga, Tenn., and the groomsmen included, John Neudorfer, Earl Clayton, Wallace Drew and Kiskadee Williams, Charles Turley, John L. Wilhelm, Sidney Davidson and Austin Skelton, were the ushers for the occasion.

A small reception at the home of the bride's parents, Mr. and Mrs. George Turley on North Waller street followed the ceremony, and here, too, the same exquisite taste in decoration and the artistic ensemble was noticeably lovely. The company, which was confined to the relatives of the bride and groom and a number of intimate friends, was delightful and its happy memories will abide always. In serving an ice course, in lavender, pink and white, Miss Myrtle Alexander in pink, Miss Helen Dowling in lavender and Miss Jean Turley served.

Mrs. Turley, the bride's mother wore a becoming gown of black lace. Mrs. C. E. Dowling, sister of the groom, was lovely in soft grey. Among those from a distance to attend the wedding reception were Mrs. E. T. Hardaway of Powhatan, Va., Mrs. J. T. Carey of Hinesfield, W. Va., Mrs. Walter Head of Greenfield, Mrs. James A. Pearce of Indianapolis, Mr. Elmer Hartzell of New York, Mr. William Bolles of Marietta. The other guests of the house numbered Mr. and Mrs. O. E. Dowling, brother-in-law and sister of the groom, his brother and sister-in-law, Mr. and Mrs. David Mitchell, Mr. and Mrs. John E. Williams, Mr. and Mrs. Robert M. Keeney, Mr. and Mrs. H. C. Bugh, Mr. and Mrs. John T. Whiting, Mr. and Mrs. Eric Ferguson, Mr. and Mrs. George Breese, Misses Lena Houck, Helen Dunn, Edna Marting, Myrtle Alexander, Helen Dowling, Gertrude Davidson, Alice Vincent, Dorothy Varner, Mr. Ralph Marting and members of the wedding party.

Mr. and Mrs. Mitchell will be established in a beautiful home recently purchased on Baird avenue, upon their return from a fortnight's visit in New York, Washington, D. C., Atlantic City and Philadelphia.

Before her marriage, the bride was the favorite for many lovely affairs with which her most intimate friends entertained.

Trade With Your Home Grocers They Are Your Neighbors and Your Friends

EACH Community is a neighborhood in itself—you depend on each other. You meet and talk over the things you like and the things you don't like. And so your grocer knows what will please you better than any peddler or mail order house.

Patronize him. You not only help him, but you help yourself and your community.

You take pride in your town. So does your grocer. You want his good will and he wants yours. Encourage him to keep the goods you like. He will sell you the best because he wants you—his neighbor,—to be his friend.

It is to your advantage in many ways to buy from the following reputable grocers. Do so.

Best Treatment For Catarrh S.S.S. Removes The Cause

By Purifying the Blood
Once you get your blood free from impurities—cleansed of the catarrhal poisons, which it is now a prey to because of its unhealthy state—then you will be relieved of Catarrh—the dripping in the throat, hawking and spitting, raw sores in the nostrils; and the disagreeable bad breath. It was caused, in the first place, because your impoverished blood was easily infected. Possibly a slight cold or contact with someone who had a cold. But the point is—don't suffer with Catarrh! It is not necessary. The remedy, S. S. S., discovered over fifty years ago, tested, tried and tried, is obtainable

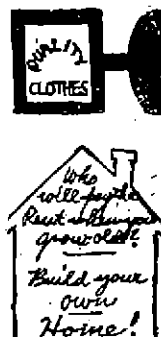

at any drug store. It has proven its value in thousands of cases. It will do so in your case. Get S. S. S. at once and begin treatment. If yours is a long standing case be sure to write for free expert medical advice. We will tell you how this purely vegetable blood tonic cleanses the impurities from the blood by literally washing it clean. We will prove to you that thousands of sufferers from Catarrh, after consistent treatment with S. S. S., have been freed from the trouble and all its disagreeable features and restored to perfect health and vigor. Don't delay the treatment. Character and Credit.

The world needs character to use its capital. There are many men of this old globe with money in the bank. There it does little to help men. Money is of value only as it circulates and produces increase. Credit is the medium through which money works. Character is the greatest asset in a man's life. That starts the money in circulation and turns the wheels of industry. That brings jobs for men and income for the owner of the capital. When pitted against each other they bring strife and sorrow. When leagued together they bring peace and comfort. So the world needs men whom it can trust to use its gold advantage. They are the real makers of history and the benefactors of mankind. Character is the credit and the capital that makes it possible.

Ohie Rising Rapidly; May Reach Lowlands

At 2 o'clock this afternoon the Ohio river was rising five inches an hour. The gauge showed a stage of 17.5. This stage would reach much corn land in the bottoms and farmers are keeping close tab on the Ohie.

KEEP OFF TOWPATH

County Engineer John Harper urges all motorists to keep off the towpath for the next few days. The towpath, from the bridge to Union Mills, has just been resurfaced with a coat of tar. The tar is damaged by many motorists running over it in the first days, and the tar is also damaging to the machines. About Wednesday of next week the towpath will be ready for heavy traffic. The road is not closed, but is not in a condition to be used, especially by pleasure cars. Engineer Harper also sends a warning about the temporary road on Hayman Hill, near Pond Creek. The road of the past week here left the temporary road in bad shape. He advises all persons wishing to go to Rushdown to use the Lucerne route.

REGISTRATION DAYS ARE FIXED

At a meeting of the Board of Election Thursday night it was decided to have all registrations for the August Primary to take place in their offices at the Kricker building instead of the various precincts as has been the custom for many years.

This will do away with the use of election booths and many clerks will mean a big saving to the city.

Registration Days have been fixed as follows: August 1, 2, 3, 4, 5, 6, 7, 8, 9 and 11. The hours of registration are from 10 a. m. to 1 p. m. and from 2 to 5 p. m.

On these days the Columbus Blank Book company was awarded the contract. The Johnson Watson company of Dayton submitted a bid of \$177.50. The board approved the ballots for primary elections in Portsmouth and New Boston.

FUNERAL AUTOS ARE DAMAGED

At the funeral of the late Mrs. William Younger, of 820 this morning, the funeral home, which had just started across the street car track in front of the Younger home, 1615 Eleventh street, became jammed between the street car which was going east on Eleventh, and the funeral home, causing a three-car pile-up. The car was forced to back so that the automobiles could disengage themselves and to allow them to resume their places in the funeral procession. Only the rear fenders of each machine were damaged.

He Dropped Work And Went Home To Nurse His Wife

But W. T. Young Was Soon Able To Go Back To The Shop, Thanks To Nerv-Worth

This grateful Nerv-Worth endorses a well known remedy of the Robbins and Meyer factory of Springfield, O., and his message is good reading to every fellow-sufferer:

"My wife has been in a severe nervous condition for a long while. All run down and in a weakened condition. Had stomach and digestive troubles. Badly constipated. Could not get restful sleep and would bleed badly from gas on her stomach. She was in such a serious condition that I was compelled to stay from work and look after her."

I purchased one bottle of Nerv-Worth from you and now, after taking it she is a changed woman, and looks better in health than FOR 20 YEARS. No more nervousness. No stomach or digestive trouble and she sleeps soundly all night. We certainly praise Nerv-Worth as it proved to do all and more than the makers claimed for it.

"W. T. YOUNG."

Former Resident Kills Self

Washington J. W. Chaffin, a former resident of this county, committed suicide by shooting himself at his late home in Santa Maria, Cal., Sunday morning, June 23. Mrs. George Lemon of Seaside, a niece of Mr. Chaffin, received a letter yesterday from her aunt telling of the regrettable death.

Mr. Chaffin was born and raised in Lyra, near Santa Webster. Eighteen years ago he moved to California with his family and settled on a produce ranch four miles out of Santa Maria. A year ago he sold his ranch for over \$24,000 and retired, taking up his residence in Santa Maria. Mr. Chaffin was in the best of health and his distracted wife writes that the family is at a loss to know why he would take his own life. His financial affairs are in the best shape possible and he appeared in the best of spirits Saturday evening when he retired.

According to the letter sent by Mrs. Chaffin her husband arose early on Sunday morning and when she went down stairs sometime later he was missing from the home and she went into the yard to look for him. She found his lifeless form, a bullet from a revolver having caused instant death. It was just before dawn that Mr. Chaffin committed the rash act. Mr. Chaffin was 71 years of age.

Besides the wife he leaves a family of 10 children. He also leaves a half brother Harry Hayward of Iowa. According to Mrs. Lemon, Mr. Chaffin had not a clean and religious life and was always averse to "such things as suicide."

The deceased had many friends here who will be sorry to learn of his death.

Woman Is Drunk No. 8

Louise Dudley, colored, made a trip to Ashland yesterday because she felt bad and wanted something to cheer her up. She was in fine spirits when she returned and according to the police, she grew quite hilarious at 12th and Findlay streets and used some choice language in addressing the multitude.

An officer then got Louise and led her to the watchhouse and this morning she pleaded guilty to drunkenness and Mayor Kays chalked up a fine of \$5 and a case against her.

How You May Reduce Your Weight

Overindulgence is a very unwise addition, especially in the present day, when slender figures are in popular, and every reader of this paper who has noticed a tendency to put on weight will be glad to know of a new, simple home treatment that is remarkably efficient and inexpensive.

If you happen to be one of those whose weight is more than it should be, don't try to reduce by starving yourself. If you want, but take after each meal eat at bed times five grains of Phytol which you can secure at any drug store.

Phytol is designed to increase the excretory power of the blood and dissolve fatty toxins, in many cases at a rate of a pound a day. It is pleasant to take and gives remarkable results quickly and easily. Claster and Seitch Pharmacy opposite Post Office can supply you.

Resinol

would clear her skin

"She would be a pretty girl, if it wasn't for that pimply, blotchy complexion!" But the regular use of Resinol Soap, added at first by a little Resinol Ointment, would probably make it clear, fresh and charming. If a poor skin is your handicap, begin using the Resinol treatment and see how quickly it improves.

Resinol Soap and Resinol Ointment are excellent for the care of the skin, the itching, chapping and burning that attend indigestion. All druggists sell Resinol Soap and Resinol Ointment. The Resinol Treatment is a safe, soothing, and refreshing skin treatment.

Much Fun Promised In Sunday's Game At Millbrook

Colored Team Is Sure To Pull Comedy Stuff, But They Can Play Ball

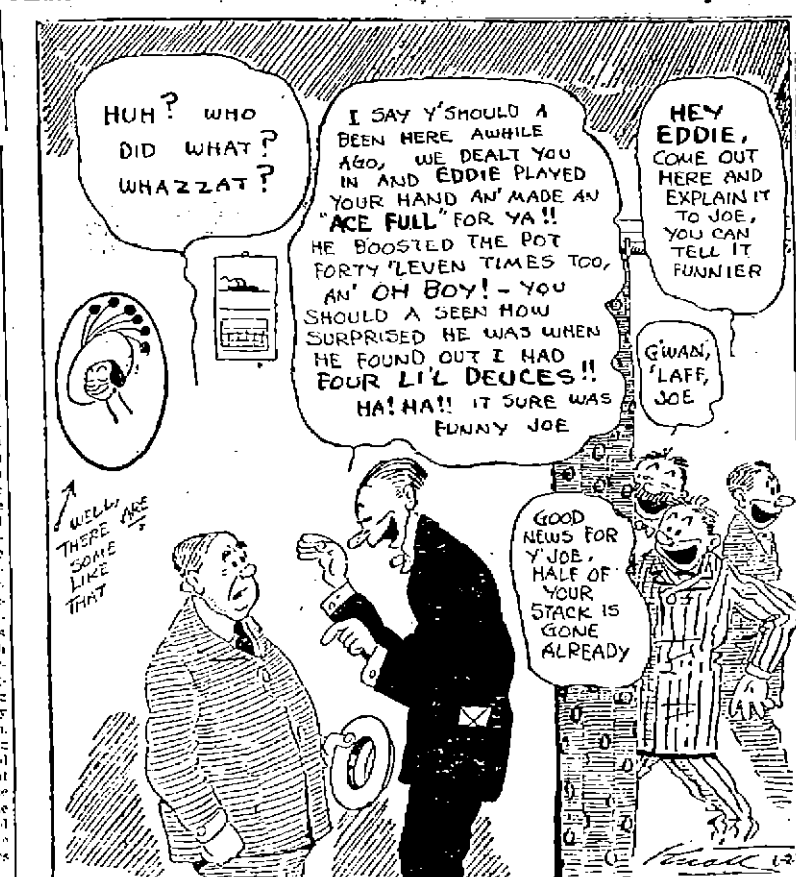

A great crowd is expected to assemble at Millbrook Park, Sunday afternoon, to witness the game between the 418th Battalion team of Camp Sherman, composed of colored troops, and reputed to be the strongest team at the big amusement, and "Gabe's All Stars." Interest in this game is as feverish as that in the game between the colored players and a strong and fast aggregation of ball tossers, but because they are bound to pull some comedy stuff that will keep the stands in an uproar. Whenever you see a colored team in action, rest assured that they will put on some acts that are not down in the book of rules—clever stuff from the side lines in a coaching way that will tickle the funny bones.

The All Stars realize they are going up against a stiff proposition, but they are going out there to trip their opponents if possible, and a great contest is bound to be staged. This will be the first time the colored boys have been away together from Camp, although the team has been organized for some time and they play like a well-oiled machine. The team will be accompanied by a large crowd of rooters and they are bound to make the walking ring. The game is to be called at 2:30 p. m. prompt and it should draw at least 1,500 people. The lieutenant in charge of the visitors writes that the team will make any team in the state seem and no less athletic than Mike Treacle, athletic director of the camp, claims in with a big boost for the colored team. He says the boys are well-mannered and among the best soldiers at the camp and have trimmed everything they have gone up against this season.

That the local players may get their first instructions before the game the following players are asked to report at the Millbrook this (Friday) evening at 7:15 o'clock: Stillwell, Shultz, Myers, Rollins, Steden, Barber, Valodiu, Hutton, Stewart, Bartfield and Kesser. Manager Joe Brennan will be present and will have something of interest to impart to his players.

For the game Sunday the fans can rest assured the grand stand is now as solid as the rock of Gibraltar. That portion of the stands that were exposed to the weather have been torn down and the stands pronounced secure in every particular. The stands have been cleaned again and Joe Allen has the playing grounds in elegant shape. The grass in the outfield has been clipped and the infield is as smooth as a billiard table. Some fast and accurate work is expected. The All Stars certainly will be without doubt the strongest team that has represented Millbrook in years. Many people are inclined to the belief that the team as it stands could have held its own with the local team of the O. S. L. It certainly has given a fine account of itself in the two games played, winning ten ten-lane struggles in the only games played so far this season. Manager Brennan is gradually getting the team work down in fine shape and the fans are pleased to announce that intelligent ball has been played in the games to be staged this season. Come out Sunday and watch the fun and enjoy the frolic—the game is going to be a rare treat and worth every mile to see.

July 4—Selby vs. N. & W.
July 5—Excelsior vs. Drew.

Owing to the heavy rain of yesterday, the scheduled game between the N. & W. and Solway teams, which was to have been played Thursday evening on the Seventeenth street grounds, was called off. The infield was a regular quagmire, while the outfield had been transformed into a very pretty lake. The grounds had been so thoroughly soaked by the constant down-pour of the week, there was no chance for them to be drained, despite the fact the groundskeeper did his best to have the field in playing shape.

Postponed games are piling up with considerable regularity of late, and it will take some fine Saturday afternoon to play them off before the season comes to a close. However, the season can be lengthened, if necessary. The Solway team expected to present its strongest line-up last evening, with Cooper and Valodiu in the game. "Knapp's Lads" will present a strong front, and the team is bound to make a bid for the bunting. The N. & W. team has been revamped, and with Weaver on the mound they expect to clutch from now on. Weaver is a big, husky south-paw, who knows how to pitch, and who has plenty of stuff as well. There is a preponderance of left hand hitters in the Industrial League and Mr. Weaver ought to go along nicely because of that fact.

Should the grounds be in shape, the Excelsior and Steel Plant teams will battle this evening, and this contest will no doubt be exciting as the teams are evenly matched, and the Excelsiors will strain every ligament to remain well up in front. They have lost but one game this season. Game called promptly at 6 o'clock.

Reds Wallop The Pirates

The Reds handily thrashed the Pittsburgh Pirates, 7 to 0 yesterday. The game was halted in the sixth inning by rain and further play for the day was impossible.

Bets On Willard Pecord To Referee Fight

H. L. Whitehouse, a Toledo broker, yesterday wagered \$400 against \$100 that Dempsey would not be on his feet at the end of the tenth round in his "Fire Cracker Day" battle against Jess Willard. According to rumormongers, Willard has been showing old time from the feet at the end of the tenth round in his "Fire Cracker Day" battle against Jess Willard.

TOLEDO, O., June 27.—Less than fifty pounds heavier than the challenger, Jess Willard, today as the referee of the Willard-Dempsey bout, is himself a former professional boxer and ball player. He is 32 years old.

A record came to Willard 20 years ago and began his professional boxing career here as a welterweight in the 100's. Willard was in the ring about five years. When James J. Corbett spent a week here training for his last contest with Alvin Jeffries, Willard loaned the clothes with him several times.

GREAT RACE IN AMERICAN LEAGUE

Chicago, Cleveland and New York are putting up a dazzling race for the leadership of the American league. These teams are wonderfully well fortified, and it is a toss-up who will win. Cleveland topped two from Chicago this week, then dropped the last game to the White Sox and was beaten 1 to 0 by Detroit yesterday. The Yankees have been fattening up on the down-trodden Athletics.

No Chance For Robertson To Join Climbing Reds

Manager McGraw says the Reds will not play professional ball. McGraw at last realizes that the Reds have a permanent contending team, and he evidently does not wish to hurt his chances by bolstering the Redlegs.

JUST DOPE

Manager Moran of the Reds says that Noale is one of the fastest men in baseball today.

This Speaker has just begun to hit for Cleveland. Now keep your eye on the Indians.

Outfielder Earl Smith continues to hit timely for the St. Louis Browns. Crotte has lost two straight, but there's still a bit of balance on the other side of the ledger.

Heinie Zimmerman was matched last night. His bride is Miss Bertha Noel. He is the third member of the Giant team to turn Benedict lately. Kniff and Barnes are the other two newly-weds.

Two more home runs for Roger Peckinpaugh. An odd thing about Peck's voracious blingling is that he hasn't made a two base hit since May 12. He has had five no hit days, April 20, May 3, June 5, 10, and 21.

The Detroit team has three batters among the leading five hit staples only fourth in games won. Showing that hitting isn't everything.

When Shawkey of the Yanks. was winning his eighth straight, Rogers of the Athletics was losing his eighth straight, and it was the same game. That Chase sent his halting average soaring yesterday. It amounted to the 240 mark, the highest it has been this season. Hal tagged the Brooklyn twirling for five safe ones.

Caton Is In Game

Howdy Caton is back in the game for the Pirates. He performed against the Reds Thursday and smoted a triple to right on his best trip to the plate. He failed to score. Caton had been out of the game two months the result of a charleyhorse.

MORE STRENGTH TO THEM

MAYORS Kape, of Portsmouth, and Fitch, of New Boston, are to be unreservedly commended for the firm hand with which they suppressed the anarchistic rantings of a couple of agitators, Wednesday evening.

We were just wondering how members of this peculiar sort of party would fare if they returned to this vicinity. They came back and the answer is satisfactory. Portsmouth has a sort of happy-go-lucky disposition and she has all to unwittingly and carefully forbore good naturedly with those who have no other purpose than to foment discontent and disorder, who never consider themselves so happy and so successful as when they succeeded in raising hell. It means more notoriety for themselves and thence more coin in their pockets.

But Portsmouth is finding there is a limit to endurance in patience. There were mutterings and a dangerous mood brewing in the big crowd on the government square that heard the shouting agitator. It needed but a bit more and a leader to sway it on to violence. No wonder it lost patience either. The harangue opened with abuse of government, president and ex-president and all things existent. Existing order was assailed. Wilson was declared to be an arch enemy of the country and labor, Roosevelt was denounced as one who had never done anything other than shooting a Spaniard in the back—everything should be destroyed in order that something else, neither he nor anyone else knows what, might be built up. Then a policeman seized him and brought him before Mayor Kape, who told him just what he and his fellows were to get if he heard anymore.

Popular violence, arbitrary exercise of authority are actions not usually to be approved. There are also, other things not to be tolerated. This country, Portsmouth no worse than any other part, though, nevertheless, grievously offending, has been too tolerant of the disloyal and the traitorous, who stretch too far the license of free speech to spread their noxious professions to the hurt of established and free government. Hereafter the authorities must deal with the species of disturbers and destroyers with an iron hand, or the people who love order and peace and their country—and there are a thousand of these to one of the other—will take the matter of their preservation in their own hands.

THERE IS A LAW AGAINST THIS

TRACY Park, the little spot of virgin forest, Tracy Park, the place where innocent children play all day long, isn't a decent place after dark, which is neither new, nor new.

But Tracy Park is becoming more noisome and starting at the business even before dusk falls, which is something new and news.

Have you ever noticed how after supper the west side of the park is harried with automobiles? Have you ever observed the frequency with which automobiles drive up to other sides of it and stop? Has it ever occurred to you why so many should come to a pause at this rather unusual and out of the way place for that?

Well, we'll tell you. Tracy Park has become the meeting place of the roisters and the joy riders. We needn't tell you the character of the females that make "dates" for it. Some may be so giddy as to be decent, but they will be neither very long. May be you would like to know something of the character of the men, who make the dates. Well, we'll tell you something about them, not their character for the male that makes a date like that hasn't got any character, but about them personally. Some are foolish young fellows of vaunted respectability, whose idea of a good time is to take some girl out, whose social standing is lower than their's, others are totally disreputable and there are fathers of families, whose escapades, if printed here, would shake the old town from center to circumference. Oh, yes, their names are known, because every machine carries a number, recorded at the court house with the name of the owner of the car.

Now, don't understand us to say that every car that stops along side the park does so with the a foul purpose on the part of the driver, but the majority of them do—after dark. And the police know of it too, though so far, despite the fact that surrounding residents have complained, they have taken no action.

AN INTERESTING PROPOSAL

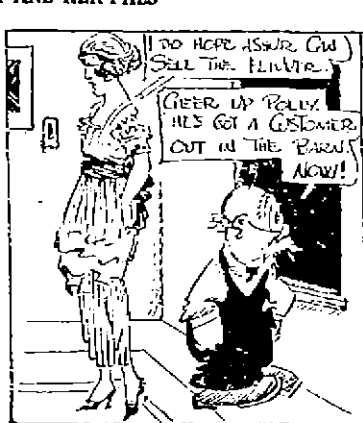

ILINOIS is to elect delegates to a constitutional convention, next September, and in anticipation thereof the Democratic machine, of Chicago, has submitted a noteworthy and in theory, an altogether approvable proposition to the Republican machine.

Of course, you will say, just as the enemies of Roger Sullivan, the Democratic boss, are saying: "This is merely a scheme to enable the bosses to pick the delegates." Considering the source and the details set out with it, it seems anything else but that. Two delegates are to be elected from each legislative district. As the Democrats ordinarily carry a majority of these it can not be to their partisan advantage to guarantee the Republicans a fifty-fifty representation, but that is just what they do. They even go farther than that. Their desire is that Chicago have its best and strongest men to help write the new constitution, so they propose that the chamber of commerce, all the important civic bodies and the central labor council approve the nominees of both parties. If they can not do that then objectionable nominees are to resign and vacancies thus created filled with acceptable men. As further evidence of good faith they submit names of both Republicans and Democrats upon to whose acknowledged standard all nominees should measure.

Thus, apparently made in all sincerity, the proposal commends itself as worthy of common agreement. At least our latest experiment at constitution making in Ohio convinces us of as much. We had a general scramble, every Tom, Dick and Harry with an idea, or an impossibility of maintaining one was a candidate for constitutional delegate. There was no direction and no leadership and the voting was a sort of an indiscriminate, pell-mell affair. The result was a choice full of cranks, concrete conservatives, visionaries, reformers, progressives, cranks and misfits and a hodgepodge production as the capital law of the state, that has kept the courts busy trying to construe it intelligently and the elections worked over time vying to change and reform it.

The Chicago proposal couldn't possibly be more productive of what ought not to be: it gives, on its face, promise of being healthful and helpful to what ought to be written in the fundamental law.

POLLY AND HER PALS

THE WISHING PLANE

Before Captain Brave showed them around the battlefield at Chateau-Thierry he told them how Marshall Foch, who led the allied armies, you know, had played a clever trick on the enemy at this point.

Captain Brave drew a huge letter "U" on the ground and pointed out how the allied army had finally made the battle line at this point in the shape of this "U," with its men on the outside of the letter.

The enemy of course was on the inside of the letter. Then the allied men on both sides of the letter and at the bottom moved forward at the same time. This meant that the enemy had to get out of the letter "U" in a hurry or be killed. The explanation was pretty deep for Jane, but Jack, just as every other boy would, enjoyed it immensely, and decided that if he ever got into a war he would use the same plan against whoever he was fighting, if he could.

Captain Brave pointed out that Chateau-Thierry was at the bottom of the "U" and that the Americans by their wonderful fighting at this point and their help at other points in the line had made possible this great plan.

He showed them how Reims was at the top of one side of the letter "U" and another city named Soissons was at the top of the other side.

They walked slowly around a section of the battle field at Chateau-Thierry and occasionally read the names on the little crosses on the ground. All of a sudden Jane called Jack and the rest of them to come quick, and when they arrived at her side they found that she had accidentally come upon the grave of her Uncle George. It surely was he, too, because there was his name, his company and regiment and division right on the cross. Jack of course couldn't remember all these things about him, but Captain Brave had made a special note of them when the children's mother had told him of Uncle George.

"Oh, I do wish mother and father were here, too, to see where Uncle George is buried," said Jane.

"I am afraid they couldn't come very well," said Captain Brave, "but we can do lots of things that will make them glad that we found his grave."

When she suggested that they spend the rest of the day getting flowers and planting them around Uncle George's grave, the children of course agreed and said they'd be glad to help her.

"I wish there was some way we could show mother and father what we have done when we're through and what the grave looks like," said Jack.

"Well that is a simple matter, said Captain Brave. 'When we get every thing shipshape I will get the camera out of the airplane and we will take a picture of it.'

"This was the first thing the children knew about Captain Brave having a camera. It was just another one of the hundreds of the surprises they had had, and were to have, on the trip.

The rest of the day was a busy one for the children, what with carrying flowers and digging up the dirt and cleaning up the ground around the grave.

"They planted a little green tree at the head of the grave and from one of the hundreds of places in the airplane where he had things stored, Captain Brave unearthed a little silk flag. The flowers planted on the grave were of many kinds and so selected that some of them would be blooming all summer, and a few of the more hardy ones would hold their heads up through the cold weather. They bought enough shrubs to make a little fence all around the mound.

When everything was completed, Captain Brave took several pictures of the grave. The children were awfully tired that night, but it was a happy tiredness, because they knew they had done something to make mother and father happy and to show their love for them and for Uncle George.

NEW-YORK-DAY-BY-DAY

NEW YORK, June 27—Thoughts along Broadway on a hot afternoon: Don't mind the humidity so much as the remarks about it. That Hawaiian at the Claridge had an idea. Were a colder cap filled with shaved ice. The Miss. Yvette Guilbert talking to Mr. Welch, of the Evening Telegram. How young she grows! Funny sign in that beauty parlor: "Eyebrows shaved."

Broadway getting ready for the liquor finish on June 30. Literary big wonders if literature must go by the country. Underneath a long list of writers, editors and college professors had endorsed the 275 per cent beer, but want wines and hard liquors abolished.

Hello! De Wolf Hopper wearing sandals. Going to star as Old Bill next year in "The Better Ole." Bill Flynn the great detective talking to Sam Bernard. See the Episcopal church has taken up Christian healing. Never could believe sickness was sent by God. Think I'll go to church next Sunday.

Funny old buildings below the Metropolitan. Spoil Broadway. Love to hang around this newstand at the Times Building. Hope I run into Scotty, the old hockey tramp. A great guy. Seemly. Very religious but won't work. Says the Lord will provide. Always quotes the Bible. Says, "The ravens fed Elijah." They never been hungry either and always has a little money. "Queer world! And I work like a dog. Every time I tell my wife that she laughs and it makes me mad."

That Persian philosopher spouting about paradise beneath a bench never saw Broadway. I can't help but love the crowds. (Dr. Johnson was a lover of crowds. "Saw was Charles Lamb. Wasn't it Socrates said: 'From fields and forests I can learn nothing, but I can from the men in town.'") He spoke a mouthful, that fact.

Never saw an Irishman carry his pipe in his hat but before evening in Manhattan. Here of these funny little pearl gray dresses. Dickens called 'em "pet hats." Think I'll stop in this movie.

The resignation of Frank A. Vanderbilt as president of the City National Bank the other week resulted in many editorial blarney for the newspaper reporter as a business man. Vanderbilt was a reporter on a Chicago paper and he brought to New York and to Wall Street a large bit of Western vision. A great banker once told me that he never knew a trained newspaperman who did not make good in business. But he added they should stick to their newspaperwork. "They are never happy in the commercial world," he said.

There was a well known head of a corporation who was graduated from a newspaper shop. Now and then he used to go over to Park Row and snoot about the newspaper offices. He confessed that he likes the smell of printer's ink and to dream of being back on a newspaper. He was making more than \$50,000 a year.

Talk about getting refined gold or painting the lily. Listen to this: The United States Marine Corps has appointed a new press agent. As if the Marines needed boosting. During the war Burns Mantle used to say his idea of a soft job was getting stuff in the papers about the Kaiser. A prize after the war job must be press agenting the Marines.

For the last few days before prohibition the anti-prohibitionists are putting up a stiff old fight. They have just dug up the financial statement of the Anti-Saloon League of New York, which shows an expenditure of \$271,323.60 for political purposes in this big dog-eat-dog world. There is a record of a small record of any purchase of Liberty bonds for either of the five drives or the purchase of any War Savings Stamps.

Rifle Club Will Meet

An important meeting of the Portsmouth Government Rifle Club will be held tonight in the club room. Every member is urged to attend, as plans are to be made for a shooting contest that will end with four prizes being given to the four best marksmen.

First American Railroad.

Although America's railroad history is recorded as beginning when the Baltimore & Ohio laid its first rails in 1828, a pair of rusted strips of iron still visible in eastern Massachusetts tell of a pioneer transportation line whose inauguration antedated that event by two years. From the granite quarries of West Quincy the old road ran four miles to Haverhill on the Neponset river, and carried granite for the building of the Bunker Hill monument. The rails, of hand-forged iron, were in the shape of a T and three-quarter inch thick, were held by hand-forged spikes to the granite roadbed. Mules were the locomotives, assisted by a cable where the grade was heavy.

WHO'S WHO

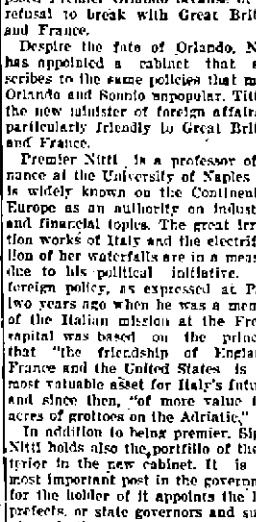

PREMIER NITTI

Prof. Francesco Saverio Nitti, former Italian minister of the treasury and now head of the Italian cabinet, is confronted with a difficult task. He realizes the happiness and prosperity of his country are absolutely dependent upon the maintenance of friendly relations with Great Britain, France and America. Yet the Italian Chamber of deputies which has the power to cut off his official head at any time, is most unfriendly to Italy's late allies and has just deposed Premier Orlando because of his refusal to break with Great Britain and France.

Despite the fate of Orlando, Nitti has appointed a cabinet that subscribes to the same policies that made Orlando and Bonino unpopular. Tilton the new minister of foreign affairs is particularly friendly to Great Britain and France.

Premier Nitti is a professor of finance at the University of Naples and is widely known as the Controller of Europe as an authority on industrial and financial topics. The great irrigation works of Italy and the electrification of her waterfalls are in a measure due to his political initiative. His foreign policy, as expressed at Paris two years ago when he was a member of the Italian mission at the French capital was based on the principle that "the friendship of England, France and the United States is the most valuable asset for Italy's future," and since then, "of more value than acres of provinces on the Adriatic."

In addition to being premier, Signor Nitti holds also the portfolio of the interior in the new cabinet. It is the most important post in the government for the holder of it appoints the local prefects, or state governors and supervises elections.

DOC KOKO'S KOLUM

"Why are you going to discover the Mississippi river?" asked a soldier of Hernando de Soto.

"In a prudent man," replied the great explorer, "and I believe in preparedness. A long dry spell is going to set in in this country about July 1, 1919, and there should be no shortage of the water supply."

Daniel was in the lions' den.

"Of course," he reflected, "I don't see much of a stunt as compared with the stuff they will pull in the movies, but it's the best we can do with the material we have."

Alexander the Great was ready to start on his campaign to conquer the world.

"You can take it from me," he remarked to General Jazbo, "that if I thought I could get a release for this war stuff I'd have it filmed as a series of news features."

"No use," laconically replied Jazbo, "war stuff is out of date in these modern times."

So it's all Jazbo's fault that so little is known of these days.

Abe Martin

"If anybody ever names a sugar after me I'm going to have something to say about what goes into it," said Abe Martin, who was a half-baked General Tom Thumb. "Remember when we used to run when a fellow asked for his hip-pocket?" said Abe Martin, who lives in Ohio, Ohio.

Real Weapon All Right

A returning officer brought the following story from the fighting front. He was commandant of a colored soldier's company. Inspecting his men shortly before they went over the top, he saw an implement, not provided for in regulations, swinging from a soldier's neck by a piece of string.

"What's this?" he demanded.

"Why, cap'n, boss da's mah' raz'!" said the soldier.

"Why is it suspended from your neck by a cord?"

"Ah may get to 'er close quarters, cap'n, boss, an' all Ah'll have to do 'will be to 'rank on it' raz'. It' cord'll snap an' Ah'll shore be shaved."

"But you have your bayonet for close work, Rastus?"

"Bayonet?" sniffed Rastus. "Cap'n, boss, you jes let them's doan know how I' fight wid a real weapon use de bayonet. I'm Ah'm 't be in a real fight, Ah wants a real weapon. Please cap'n, boss, doan tak' mah' raz' away."

He carried it.

It was a day after the hot carriers' picnic and Hogan was in a bad way.

"Och, mother, Honora!" he groaned. "It's me insides that's burnin' up int'rely."

"D'ye think, Mike that ye could get the force under control wid a bottle of water?" asked Mrs. Hogan.

"O! duane!" said Hogan, "but anyway it would help to wet down the ruins."

A headache and repeated demands from a six-year-old daughter had kept Mrs. Hogan awake nearly all night. At 5 in the morning, when she had at last dropped sound asleep, the little girl called softly from her crib:

"Mother."

No answer. Again a little louder.

"Mother!"

Mother said nothing. Again the child's voice, this time still louder:

"Mother, isn't it too bad that one of Harry McCole's pollwicks died?"

Mr. Tomkins was obliged to step on straight at a small country hotel. He was shown to a room by the one boy the place afforded.

"I'm glad there's an escape here in case of fire," commented Mr. Tomkins as he surveyed the room; "that what's the idea of putting a prayerbook in the room in such a prominent place?"

"That," replied the boy, "is intended for use in case the fire is too far advanced for you to make your escape, sir."

"Would you call Jones a well-informed man?"

"Jones?" Why, I venture to say that Jones couldn't name six men on his home team."

German Delegates Are On Way To Versailles; Will Sign On Saturday

WILSON TO LEAVE FOR AMERICA AS SOON AS PEACE TREATY SIGNED

THEY'RE ON THEIR WAY
COBLENZ, June 27.—(By the A. P.)—Foreign Secretary Muller and Colonial Secretary Bitt, the two German peace delegates on their way to Versailles, passed through Coblenz at 9:15 a.m. this morning, a telephone message from Coblenz reported.

A Berlin dispatch to the Cologne newspaper says that the German delegates understand that they are to sign the treaty at 2 o'clock Saturday afternoon.

WILL SIGN SATURDAY
PARIS, June 27.—While no official announcement has been made up to this time regarding the time for the signing of the peace treaty with Germany, arrangements

for the event are progressing with the understanding that it will occur at 2 p. m. on Saturday. The council of four was in session this morning perfecting the plans for the signing.

If the signing occurs as contemplated, President Wilson plans to leave Paris immediately afterwards, sailing for the United States at noon on Sunday.

On the advice of the council of four, the Chinese delegates have agreed to sign the treaty unreservedly, with the understanding that a protocol later will be added to the treaty, stating that they signed with the understanding that Japan would return the Shantung concessions to China within a stipulated time.

Ex-Kaiser Plans To Flee Holland

BERLIN, June 27.—(By the Associated Press)—Former Emperor Wilhelm is planning to speedily return to Germany before the entente can demand his surrender from Holland, according to a Stuttgart dispatch to the Dutch government "thoroughly approves of his return, as the former emperor is an unwelcome guest and his presence in Holland is increasing the problem before that country."

The prince is also quoted as declaring that "East Prussia and Silesia will never consent to be governed by Poland. There will be another war in ten years."

WEATHER

OHIO—Fair tonight, except cloudy near the lake. Saturday, fair.

PLAN TO SHIP LIQUOR TO EUROPE

LOUISVILLE, KY., June 27.—With the expectation that congress will strike out of the war-time prohibition enforcement bill the clause which prevents exportation of whiskey, liquor dealers in Kentucky have under consideration a plan to ship their surplus stocks to Europe after June 30. To this end, it is learned here, a corporation would be formed to handle the exportation.

By this source, according to W. N. Cox, president of the Louisville Warehouse Company, all of the estimated 30,000,000 gallons of liquor expected to be left on hand in Kentucky after the war-time prohibition becomes effective, will have been disposed of before constitutional prohibition is established.

Labor To Protest Intervention

SOUTH PORT, ENGLAND, June 27.—British, French and Italian labor representatives have decided to make a general demonstration on July 20 or 21 to protest against allied intervention in Russia. This announcement was made by Arthur Henderson, British labor leader, at the labor conference here today.

BERNE, June 27.—A counter revolutionary movement in Hungary, during which a number of the Danube valley was seized by the anti-government forces, has been put down, according to advices to the Vienna correspondence bureau from Budapest.

NAVAL BILL PASSES IN THE SENATE

WASHINGTON, June 27.—The senate today passed the naval appropriation bill, which carries provisions for a vigorous campaign by the department of justice against anarchists and other anti-government elements. In addition to \$300,000 as a special fund to be devoted to the rounding up and deportation of dangerous alien radicals, the committee recommended an increase of from \$1,400,000 to \$2,000,000 in the amount to be used by the department of justice in general suppression of crime.

The bill also provides for continuing permanently war time regulations as to purchase, storage, manufacture, sale and distribution of explosives. Enforcement of the regulations will be under the direction of the bureau of mines.

The naval appropriation bill, which was passed in the senate late yesterday virtually as reported by the committee and now goes to conference. Its total of about \$111,000,000 is \$14,000,000 more than the house bill provides and still left in conference is anticipated. The proposed appropriation of \$35,000,000 for aviation is \$20,000,000 more than the sum proposed in the house bill. Provision also is made for an enlisted strength of 191,000 men from September 30 to the end of the year as opposed to the house plan for a force of 170,000 after January 1, entailing an increase for pay of \$12,000,000.

An amendment offered from the floor by Senator La Follette to give enlistments in the army, navy and marine corps made after February 1, 1917, war time status, was adopted.

POLAND GETS USE OF ARMY

PARIS, June 27.—(By the Associated Press)—The council of four has granted Poland permission to use General Haller's army or any of its other troops in restoring quiet to eastern Galicia and driving outlaws from the country. This is regarded as a great victory of Ignacy Jan Paderewski, the Polish premier, who appeared before the council in company with Hugh Gibson, American minister to Poland and exhibited many photographs showing the brutal manner in which the outlaws tortured their victims before killing them.

The armistice between Poland and Ukraine ended June 21, when officers representing Shimon Petliura, the Ukrainian peasant leader, advised Polish generals that Petliura had not authorized the negotiations which resulted in the armistice.

GOLOMINE IN EMPLOYE'S BACKYARD

WASHINGTON, June 27.—Secret service agents of the treasury department are said to have struck a veritable gold mine here in prospecting in the back yard of Charles L. Tamm, a trusted employee in the minting room of the treasury department, and unearthed more than \$65,000 in redeemable treasury notes buried in tin cans and other receptacles several feet below the surface of the earth. Thousands of dollars in partly mutilated notes also were reported by the agents to have been discovered hidden in the walls, under carpets and in every conceivable manner, waiting to be rendered negotiable again by a process of piecing together.

Tamm was charged with concealment of the notes in an indictment returned by the grand jury and when taken into custody last night, police said they found on his person several thousand dollars in notes freshly appropriated.

Tamm had recently expressed the intention of resigning. In a short time fellow employees are said to have told the police.

Much Fun Promised In Sunday's Game At Millbrook

Colored Team Is Sure To Pull Comedy Stuff, But They Can Play Ball

A grand crowd is expected to assemble at Millbrook Park, Sunday afternoon, to witness the game between the 418th Battalion team of Camp Sherman, composed of colored troops, and reputed to be the strongest team in the big cantonment, and "Gabe's All Stars." Interest in this game is at fever pitch, not only because the colored players are a strong and fast aggregation of ball players, but because they are bound to pull some comedy stuff that will keep the stands in an uproar. Whenever you see a colored team in action, rest assured that they will put on some acts that are not down in the book of rules—clever stuff from the side lines in a coaching way that will tickle the funny bones.

The All Stars realize they are going up against a stiff proposition, but they are going out there to trim their opponents if possible, and a great contest is bound to be staged. This will be the first time the colored boys have been away from Camp, although the team has been organized for some time and they play like a well oiled machine. The team will be accompanied by a large crowd of rooters and they are bound to make the working time. The game is to be called at 2:30 p. m. prompt and it should draw at least 1500 people. The lieutenant in charge of the visitors writes that the team will make any semi-pro team in the state sten some and no less authority than Mike Givens, athletic director of the camp chimes in with a big boost for the colored team. He says the boys are well mannered and strong, the best soldiers at the camp and have trimmed everything they have come up against this season.

That the local players may get their final instructions before the game the following players are asked to report at the Play House this (Friday) evening at 7:45 o'clock: Stillwell, Shultz, Myers, Hollins, Stetson, Barker, Valadin, Hollins, Stewart, Hanfield and Kroyer. Manager Joe Brennan will be present and will have something of interest to impart to his players.

For the game Sunday the fans can rest assured the grand stand is now as solid as the rock of Gibraltar. That portion of the stands that were exposed to the weather have been torn down and the stands pronounced secure in every particular. The stands have been cleaned again and Joe Allen has the playing grounds in elegant shape. The grass in the outfield has been clipped and the infield is as smooth as a billiard table. Some fast and accurate work is expected. The All Stars compose what is without doubt the strongest team that has represented Portsmouth in years. Many people are inclined to the belief that the team as it stands could have held its own with the local team of the O. S. L. It certainly has given a fine account of itself in the two games played, winning two ten inning struggles in the only games played so far this season. Manager Brennan is gradually getting the team work down in fine shape and the fans are pleased to announce that intelligent ball has been played in the games so far staged this season. Come out Sunday and watch the fun and enjoy the frolic—the game is going to be a rare treat and worth going miles to see.

Owing to the heavy rain of yesterday, the scheduled game between the N. & W. and Solvay teams, which was to have been played Thursday evening on the Seventeenth street grounds, was called off. The infield was a regular quagmire, while the outfield had been transformed into a very pretty lake. The grounds had been so thoroughly soaked by the constant down-pour of the week, there was no chance for them to be drained, despite the fact the ground-keeper did his best to have the field in playing shape.

Postponed games are piling up with considerable regularity of late, and it will take some Saturday afternoon to play them off before the season comes to a close. However, the season can be lengthened, if necessary. The Solvay team expected to present its strongest line-up last evening, with Cooper and Tallein in the game, "Krupp's Lads" will present a strong front, and the team is bound to make a hit for the hunting. The N. & W. team has been revamped, and with Weaver on the mound they expect to climb from now on. Weaver is a big, husky south-paw, who looks how to pitch, and who has plenty of stuff as well. There is a prepossession of left hand hitters in the Industrial League and Mr. Weaver ought to go along nicely because of that fact. Should the grounds be in shape, the Excelsiors and Steel Plant teams will battle this evening, and this evening will no doubt be exciting as the teams are evenly matched, and the Excelsiors will strain every ligament to redden well up in front. They have lost but one game this season. Game called promptly at 6 o'clock.

Edward Conwell continues his good work at the bat for the Excelsiors. Three Eye League team. He is hitting around the .350 mark and his fielding has improved with his clubbing. Several scouts have been giving Conwell the once over and he has a good chance to break into the American Association.

Loan Association To Meet

JUST DOPE

Manager Moran of the Reds says that Neale is one of the fastest men in baseball today.

This Speaker has just begun to hit for Cleveland. Now keep your eye on the Indians.

Outfielder Earl Smith continues to hit timely for the St. Louis Browns.

Cicotte has lost two straight, but there's still a big balance on the other side of the ledger.

Heinie Zimmerman was married last night. His bride is Miss Bertha Noel. He is the third member of the Giant team to turn Benedict lately. Kauff and Barnes are the other two newlyweds.

Two more home runs for Roger Peckinpaugh. An odd thing about Peck's voracious hitting is that he hasn't made a two base hit since May 12. He has had five no hit days, April 30, May 3, June 5, 10, and 21.

The Detroit team has three batters among the leading five but stands only fourth in games won. Showing that hitting isn't everything.

When Shawkey of the Tanks, was winning his eighth straight, Rogers of the Athletics, was losing his eighth straight, and it was the same game.

Hal Chase sent his batting average soaring yesterday. It amounted to a 200 mark, the highest it has been this season. That topped the Brooklyn twirling for five safe ones.

ENGLISH WOMEN TENNIS STARS IN MEET

Lady D'Abernon and Miss Ryan.

Britain's greatest tennis stars met in the national tourney at Sorbith, England. Many of the leading women stars competed. Lady D'Abernon and Miss Ryan were two of the victors.

REDS OFFER \$10,000 FOR CAREY

The Reds have put a new price on the services of Outfielder Max Carey. He would fit in admirably in the Red outfield and Manager Moran is making a determined effort to acquire his services. The Reds, it is understood, have offered \$10,000 for Carey.

GREAT RACE IN AMERICAN LEAGUE

Chicago, Cleveland and New York are putting up a dazzling race for the leadership of the American league. These teams are wonderfully fortified, and it is a toss-up who will win. Cleveland topped two from Chicago this week, then dropped the last game to the White Sox and was beaten 1 to 0 by Detroit yesterday. The Yankees have been fattening up on the down-trodden Athletics.

Pecord To Referee Fight

TOLEDO, O., June 27—Less than fifty pounds instead of the hoarded sixty or seventy pounds will be the difference in weight between Jess Willard and Jack Dempsey when they climb into the ring at Bayview, a week from today to box for the world's heavy-weight championship.

The champion weighed himself before starting his workout yesterday and to the surprise of boxing experts, tipped the beam at 243 1/4 pounds. This is six and a quarter pounds below the weight he made for his championship match with Jack Johnson. A week ago the champion scaled 218 pounds.

Dempsey scaled 197 pounds yesterday and Jimmy De Forest, trainer of the challenger said today that he expects to send his charge into the ring weighted about that figure, while Willard expects to scale between 230 and 235. He will weigh nearer the 210 pound mark, experts believe.

In the remaining seven days before the contest, it is regarded as more than likely that Willard rather than Dempsey, will reduce the most. Willard always has been a heavy water drinker and when he goes thru his drying out process for the thirty-six hours preceding the match, he probably will take off at least five pounds. Dempsey, his trainers say, can hardly be expected to lose more than a pound or two.

Gills Peckard of Toledo, formally announced today as the referee of the Willard-Dempsey bout, is himself a former professional boxer and ball player. He is 52 years old.

Peckard came to Toledo 29 years ago and began his professional boxing career here as a middle-weight in the 100's. Peckard was in the ring about five years. When James J. Corbett spent a week here training for his last contest with Jim Jeffries, Peckard donned the gloves with him several times.

There is much local interest in the Willard-Dempsey boxing match. Most everybody is picking Willard to win, but there are those who will accept the short end of a wager that Dempsey defeats the big champion.

German Siege of Paris. The siege of Paris ended on September 15, 1870, and began on January 28, 1871, when the city surrendered. German troops entering the city in March, 1871, and remaining 48 hours. The eastern part of Paris was bombarded by the Germans on January 5, 1871, and about a week later there was a general bombardment, in which many buildings were damaged and a number of persons killed. After the latter bombardment France appealed to the neutral powers, but received no assistance.

MORE STRENGTH TO THEM

MAYORS Kaps, of Portsmouth, and Fitch, of New Boston, are to be unreservedly commended for the firm hand with which they suppressed the anarchistic rantings of a couple of agitators, Wednesday evening.

We were just wondering how members of this peculiar sort of gentry would fare if they returned to this vicinity. They came back and the answer is satisfactory. Portsmouth has a sort of happy-go-lucky disposition and she has all to unwittingly and carelessly forborne good naturedly with those who have no other purpose than to foment discontent and disorder, who never consider themselves so happy and so successful as when they succeeded in raising hell. It means more notoriety for themselves and thence more coin in their pockets.

But Portsmouth is finding there is a limit to endurance in patience. There were mullerings and a dangerous mood brewing in the big crowd on the government square that heard the shouting agitator. It needed but a bit more and a leader to sway it on to violence. No wonder it lost patience either. The harangue opened with abuse of government, president and ex-president and all things existent. Existing order was assailed. Wilson was declared to be an arch enemy of the country and labor, Roosevelt was denounced as one who had never done anything other than shooting a Spaniard in the back—everything should be destroyed in order that something else, neither he nor anyone else knows what, might be built up. Then a policeman seized him and brought him before Mayor Kaps, who told him just what he and his fellows were to get, if he heard anymore.

Popular violence, arbitrary exercise of authority are actions not usually to be approved. There are also other things not to be tolerated. This country, Portsmouth no worse than any other part, though, nevertheless, grievously offending, has been too tolerant of the disloyal and the traitorous, who stretch too far the license of free speech to spread their noxious professions to the hurt of established and free government. Hereafter the authorities must deal with the species of disturbers and destroyers with an iron hand, or the people who love order and peace and their country—and there are a thousand of these to one of the other—will take the matter of their preservation in their own hands.

THERE IS A LAW AGAINST THIS

TRACY Park, the little spot of virginal forest, Tracy Park, the place where innocent children play all day long, isn't a decent place after dark, which is neither new, nor news.

But Tracy Park is becoming more noisome and starting at the business even before dusk falls, which is something new and news. Have you ever noticed how after supper the west side of the park is barricaded with automobiles? Have you ever observed the frequency with which automobiles drive up to other sides of it and stop? Has it ever occurred to you why so many should come to a place at this rather unusual and out of the way place for that?

Well, we'll tell you. Tracy Park has become the meeting place of the roisters and the joy riders. We needn't tell you the character of the females that make "dates" for it. Some may be so giddy as to be decent, but they will be neither very long. May be you would like to know something of the character of the men, who make the dates. Well, we'll tell you something about them, not their character for the male that makes a date like that hasn't got any character, but about them personally. Some are foolish young fellows of vaunted respectability, whose idea of a good time is to take some girl out, whose social standing is lower than their's, others are totally disreputable and there are fathers of families, whose escapades, if printed here, would shake the old town from center to circumference. Oh, yes, their names are known, because every machine carries a number, recorded at the court house with the name of the owner of the car.

Now, don't understand us to say that every car that stops along side the park does so with the foul purpose on the part of the driver, but the majority of them do—after dark. And the police know of it too, though so far, despite the fact that surrounding residents have complained, they have taken no action.

AN INTERESTING PROPOSAL

ILINOIS is to elect delegates to a constitutional convention, next September, and in anticipation thereof the Democratic machine, of Chicago, has submitted a noteworthy and in theory, an altogether approvable proposition to the Republican machine.

Of course, you will say, just as the enemies of Roger Sullivan, the Democratic boss, are saying: "This is merely a scheme to enable the bosses to pick the delegates." Considering the source and the details set out with it, it seems anything else but that. Two delegates are to be elected from each legislative district. As the Democrats ordinarily carry a majority of these it can not be to their partisan advantage to guarantee the Republicans a fifty-fifty representation, but that is just what they do. They even go farther than that. Their desire is that Chicago have its best and strongest men to help write the new constitution, so they propose that the chamber of commerce, all the important civic bodies and the central labor council approve the nominees of both parties. If they can not do that then objectionable nominees are to resign and vacancies thus created filled with acceptable men. As further evidence of good faith they submit names of both Republicans and Democrats upon whose acknowledged standard all nominees should measure.

Thus, apparently made in all sincerity, the proposal commends itself as worthy of common agreement. At least our latest experiment at constitution making in Ohio convinces us of as much. We had a general scramble, every Tom, Dick and Harry with an idea, or an impossibility of maintaining one was a candidate for constitutional delegate. There was no direction and no leadership and the voting was a sort of an indiscriminate, pell-mell affair. The result was a choice lot of cranks, concrete conservatives, visionaries, reformers, progressives, cranks and rascals and a hodgepodge production as the capital law of the state, that has kept the courts busy trying to construe it intelligently and the electors worked over time voting to change and reform it.

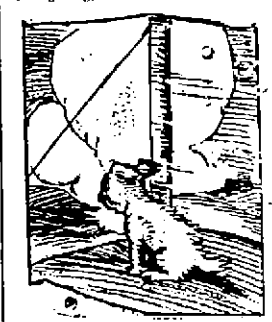

The Chicago proposal couldn't possibly be more productive of what ought not to be; it gives, on its face, promise of being helpful and helpful to what ought to be written in the fundamental law.

THE WISHING PLANE

Before Captain Brave showed them around the battlefield at Chateau Thierry he told them how Marshall Foch, who led the allied armies, you know, had played a clever trick on the enemy at this point.

Captain Brave drew a huge letter "U" on the ground and pointed out how the allied army had finally made the battle line at this point in the shape of this "U" with its men on the outside of the letter.

The enemy's course was on the inside of the letter. Then the allied men on both sides of the letter and at the bottom moved forward at the same time. This meant that the enemy had to get out of the letter "U" in a hurry or be killed. The explanation was pretty deep for June, but Jack, just as every other boy would, enjoyed it immensely, and decided that if he ever got into a war he would use the same plan against whoever he was fighting, if he could.

Captain Brave pointed out that Chateau Thierry was at the bottom of the "U" and that the Americans by their wonderful fighting at this point and their help at other points in the line had made possible this great plan.

He showed them how the Germans were at the top of one side of the letter "U" and another army named Silesians was at the top of the other side.

They walked slowly around a section of the battle field at Chateau Thierry and occasionally read the names on the little crosses on the graves. All of a sudden Jack called to Jack and the rest of them to come quick, and when they arrived at her side they found that she had ac-

identally come upon the grave of her Uncle George. It surely was, too, because there was his name, his company and regiment and division right on the cross. Jack of course couldn't remember all these things about him, but Captain Brave had made a special note of them when the children's mother had told him of Uncle George.

"Oh, I do wish mother and father were here, too, to see where Uncle George is buried," said Jack.

"I am afraid they couldn't come very well," said Ladyface, "but we can do lots of things that will make them glad that we found his grave."

When she suggested that they speed the rest of the day getting flowers and planting them around Uncle George's grave, the children of course agreed and said they'd be glad to help her.

"I wish there was some way we could show mother and father what we have done when we're through and what the grave looks like," said Jack.

"Well that is a simple matter, said Captain Brave. 'When we get everything straightened up I will get the camera out of the airplane and we will take a picture of it.'

This was the first thing the children knew about Captain Brave having a camera. It was just another one of the hundreds of the surprises they had had, and were to have, on the trip.

The rest of the day was a busy one for the children, what with carrying flowers and digging up the dirt and cleaning up the ground around the grave.

They planted a little green tree at the head of the grave and from one of the hundreds of places in the airplane where he had things stored, Captain Brave unearthed a little silk flag. The flowers planted on the grave were of many kinds and so selected that some of them would be blossoming all summer, and a few of the more hardy ones would hold their heads up through the cold weather. They bought enough shrubs to make a little fence all around the mound.

When everything was completed, Captain Brave showed several pictures of the grave. The children were awfully tired that night, but it was a happy tiredness, because they knew they had done something to make mother and father happy and to show their love for them and for Uncle George.

NEW YORK DAY-BY-DAY

NEW YORK, June 27—Thoughts along Broadway on a hot afternoon: Don't mind the humidity so much as the remarks about it. That Hawaiian at the Claridge had an idea. Wore a rubber cap filled with shaved ice. That's nice. Yvette Guilbert talking to Mr. Welch, of the Evening Telegram. How young she grows! Funny sign in that beauty parlor: "Frenzious shaved."

Broadway getting ready for the liquor fight on June 30. Literary Digest wonders if literature must go dry with the country. Understand a long list of writers, editors and college professors have endorsed the 275 percent beer, but want wines and hard liquors abolished.

Hello! De Wolf Hopper wearing sandals. Going to star as Old Bill next year in "The Better Ole." Bill Flynn the great detective talking to Sam Bernard. See the Episcopal church has taken up Christian healing. Never could believe sickness was sent by God to develop spiritual life. Feels like I'll go to church next Sunday.

Funny old buildings below the Metropolitan. Spill Broadway. Love to hang around this neighborhood at the Times Building. Hope I run into Regis, the old Bowery tramp. A great guy—Scott. Very religious but won't work. Says the Lord will provide. Always quotes the Bible. Says, "The ravens fed Elijah." Has never been hungry either and always has a little money. Quiver word. And I work like a dog. Every time I tell my wife that she laughs and it makes me mad.

That Persian philosopher speaking about paradise beneath a bough never saw Broadway. Can't help but love the crowds. Dr. Johnson was a lover of crowds. So was Charles Lamb. Wren't it Socrates said: "From fields and fens I can learn nothing, but I can learn from the men in town." He spoke a truth, that bird.

Never saw an Irishman carry his clay pipe in his hat band before except in vaudeville. More of these funny little pearl gray berries. Dickens called 'em "pot buns." Think I'll stop in this movie.

The resignation of Frank A. Vandenberg as president of the City National Bank the other week resulted in many editorial blurbs for the newspaper reporter as a business man. Vandenberg was a reporter on a Chicago paper and he brought to New York and to Wall Street a large, fine Western vision. A great banker once told me that he never knew a "journal newspaperman" who did not make good in business. But he added they should stick to their newspaperwork. "They are never happy in the commercial world," he said.

There was a well known head of a corporation who was graduated from a newspaper shop. Now and then he used to go over to Park flow and moan about the newspaper offices. He confessed that he likes the smell of printer's ink and in dream of being back on a newspaper. He was making more than \$50,000 a year.

Talk about gilding refined gold, or painting the lily! Listen to this: The United States Marine Corps has appointed a new press agent. As if the Marines needed helping. During the war Burns Mantle used to say his idea of a soft job was getting stuck in the papers about the Kaiser. A prize offer the war job must be press agenting the Marines.

For the last few days before prohibition the anti-prohibitionists are putting up a stiff old fight. They have just dug up the financial statement of the Anti-Saloon League of New York which shows an expenditure of \$274,326 for political purposes in this state and the anti-temperance that there is not a single record of any purchase of liberty bonds for either of the five drives or the purchase of any War Savings Stamps.

Rifle Club Will Meet

An important meeting of the Portsmouth Government Rifle Club will be held tonight in the club room. Every member is urged to attend, as plans are to be made for a shooting contest that will end with four prizes being given to the four best marksmen.

First American Railroad

Although America's railroad history is recorded as beginning when the Baltimore & Ohio laid its first mile in 1828, a pair of metal steps of iron still visible in eastern Massachusetts tell of a pioneer transportation line whose inauguration antedated that event by two years. From the granite quarries of West Quincy the old road ran four miles in tide-water on the Nipponese river, and carried granite for the building of the Bunker Hill monument. The rails, of hand-forged iron, two inches wide and three-quarter inch thick, were held by hand-forged spikes to the granite roadbed. Miles were the locomotives, assisted by a cable where the grade was heavy.

WHO'S WHO

IN THE DAYS NEWS

PREMIER NITTI
Pied. Francesco Saverio Nitti, former Italian minister of the treasury and now head of the Italian cabinet, is confronted with a difficult task. He realizes that the happiness and prosperity of his country are absolutely dependent upon the maintenance of friendly relations with Great Britain, France, and America. Yet the Italian Chamber of deputies which has the power to cut off his official head at any time, is most unfriendly to Italy's late allies and has just de-

posed Premier Orlando because of his refusal to break with Great Britain and France.

Despite the veto of Orlando, Nitti has appointed a cabinet that subscribes to the same policies that made Orlando and Sonnino unpopular. Tilton, the new minister of foreign affairs is particularly friendly to Great Britain and France.

Premier Nitti is a professor of finance at the University of Naples and is widely known on the continent of Europe as an authority on industrial and financial topics. The great friction works of Italy and the electrification of her waterfalls are in a measure due to his political initiative. His foreign policy, as expressed at Paris two years ago when he was a member of the Italian mission at the French capital was based on the principle that "the friendship of England, France and the United States is the most valuable asset for Italy's future" and since then, "of more value than acres of cropland on the Adriatic."

In addition to being premier, Signor Nitti holds also the portfolio of the interior in the new cabinet. It is the most important post in the government for the holder of it appoints the local prefects, or state governors and supervises elections.

"Why are you going to discover the Mississippi river?" asked a soldier of Hernandez de Soto.

"It's a prudent man," replied the great explorer, "and I believe in preparedness. A long dry spell is going to set in in this country about July 1, 1919, and there should be no shortage of the water supply."

Daniel was in the lions' den. "Of course," he reflected, sadly. "This isn't much of a stunt as compared with the stuff they will pull in the movies, but it's the best we can do with the material we have."

Alexander the Great was ready to start on his campaign to conquer the world.

"You can take it from me," he remarked to General Jaxbo. "That if I thought I could get a release for this war stuff I'd have it flung as a series of news features."

"No use," ironically replied Jaxbo. "War stuff is out of date in these modern times."

So it's all Jaxbo's fault that so little is known of those days.

Real Weapon All Right

A returning officer brought the following story from the fighting front. He was commandant of a colored soldier's company. Inspecting his men shortly before they went over the top, he saw an implement, not provided for in regulations, swinging from a soldier's neck by a piece of string.

"What's this?" he demanded.

"Why, cap'n, boss da's mah raz," said the soldier.

"Why is it suspended from your neck by a cord?"

"Ah may get to 'em close quatchie, cap'n, boss, an' all Ah'll have to do 'till he's yunk on d' raz. D' cord'll snap an' Ah'll shorn be ahmed."

"But you have your bayonet for close work, Razum."

Good Plan

"What are you going to say on the subject?"

"I am not saying what I am going to say," replied Senator Sorghum. "If I get to rehearsing it and talking it over, I might lose my nerve and not say some of it."
